

Students crushing the network?

T.J. Stewart
 MDU NETECH
(866) 947-3368

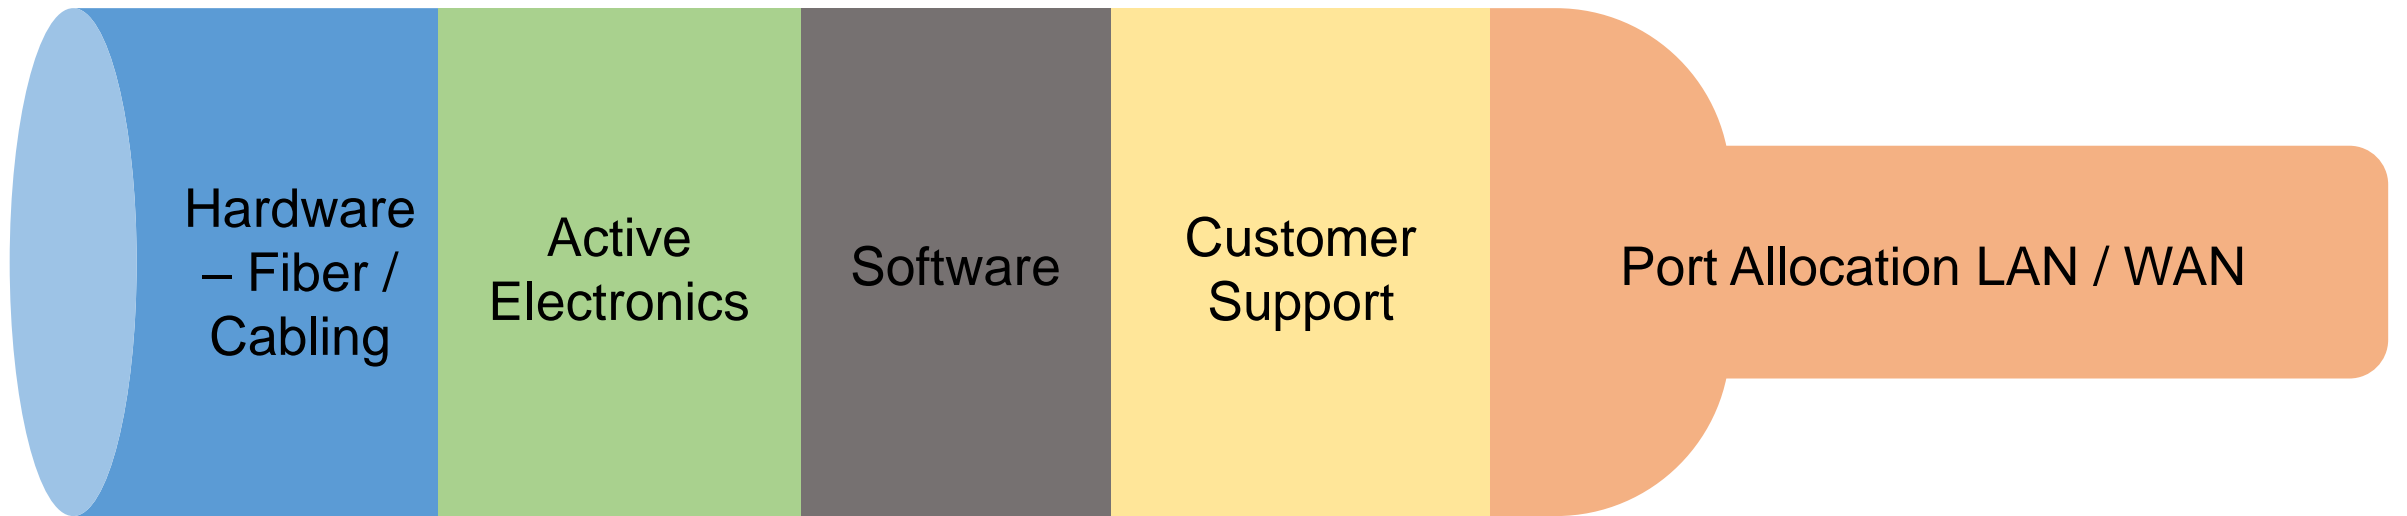

What do these have to do with Student U?

bottlenecks!

Bottlenecks: both system INDEPENDENT & system INCLUSIVE

IoT & IP: Do you have access to your LAN?

LAN = MONEY
(don't give it away)

WAN

Active Electronics:
Edge devices,
IP Cameras,
Smart Units,
Facility Mgmt,
"anything that
blinks"

Hardware
– Fiber /
Cabling

Software

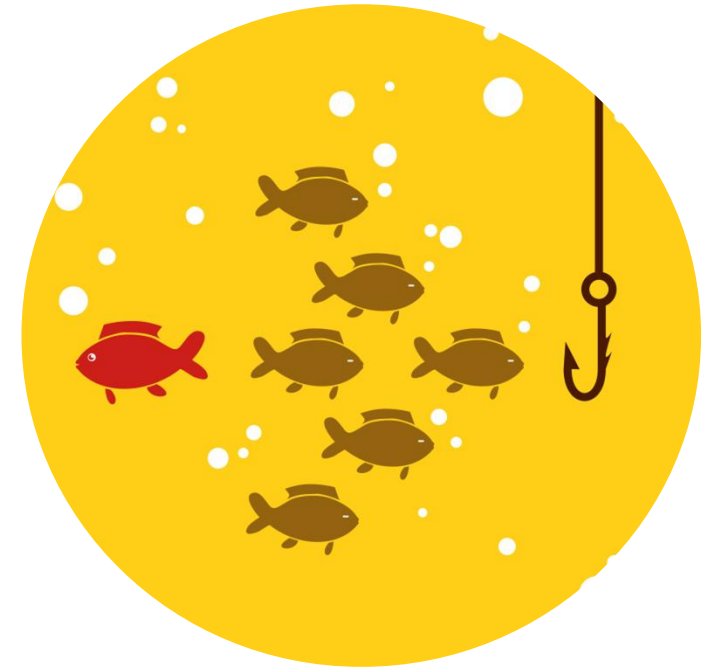

Customer
Support

Port Allocation LAN / WAN

ASK THE EXPERTS

WHAT can be or should be managed? WHO should do this? WHY does it matter?

Beyond Gig – look to MODULAR DESIGN and THROUGHPUT MANAGEMENT to COST EFFECTIVELY address bottlenecks and ONBOARD new technologies.

Network access should be COLLABORATIVE to maximize MONEY & protect the revenue source – THE STUDENTS!

Manages Student Housing IT Infrastructure & Systems for **CAPACITY**

Manages to **SPEED**
