

TECHWORKS

> of Gaston County

DON'T JUST GROW, THRIVE.

TechWorks Brand Launch Event, March 27, 2017

Don't Just Grow.....Thrive!

Within the walls of a cool co-working space, TechWorks will spur innovation and entrepreneurship, create jobs and boost economic growth in Gaston County.

TechWorks is a Catalyst for Growth

TechWorks is the only project of its kind in the State with an investment from the State, County and City totaling \$2.1M.

- City of Belmont was awarded a \$1M State Grant in Dec. 2017 on behalf of TechWorks.

TechWorks is a model for how an urban-rural county can become a hub for tech innovation and broadband expansion which will foster “new collar” job creation.
